The point code is for **MPLSMNCD08T** is **222-101-006**. Terminating interLATA traffic, as well as terminating wireless traffic will be served by the **PLMOMNBN03T** access tandem. The point code for **PLMOMNBN03T** is **222-102-002**. The following office and codes will be impacted by the re-home:

Description of Reasonably Foreseeable Impact of the Planned Change: Carriers will need to update their network switch translations when network rearrangements and central office code activity occur for the affected NPANXXs. Carriers which are not interconnected to the access tandems specified will need to issue Access Service Requests (ASRs) ordering trunks to the new access tandems. ASRs need to be submitted no later than August 14 2009. The following project name should be listed on the ASR: **POPP_Rehome**. The **PLMOMNBN03T** access tandem will begin to complete terminating toll and wireless calls for the above end offices on the effective date. If an interconnecting carrier does not establish trunks to **PLMOMNBN03T** calls will not be terminated to the carrier.
